FINEST COLLECTION

*That We Have Ever Seen.*

The enclosed list is One of Plants from the finest Private Collection that We know of. The Offering Consists of items possibly never before available to the cult. While we have not seen these all in flower we would judge any of these to be worth consideration.

It is our opinion that these crosses listed on the following sheets represent the progeny of the choicest and most exquisite Parents of each type.

Never has there been a question of a second choice parent being used — only the finest parents without regard to their cost and no matter in what country they might be — were sought.

The potential of the strains used is such that the progeny should be as far ahead of their contemporaries as their parents were to the show-grade plants in their generation.

Of course it goes without saying that the breeder plants would most probably all have received the highest awards and certificates had they been exhibited ever.

NOTE: In classifying this superb collection we have had to proceed roughly and hurriedly. Hence we listed these on the order of their arrival and did not wait to put them alphabetically.

Large groups were handled in broad pot ranges e.g. Cattleyas and their allied genera might be listed as 4" to 7" pots. All but a few of these will need repotting as soon as the growth is quite abundant. And so what we list as a 4½" pot could perhaps just as easily be put into a 6" and listed by others.

We have noted on the Catts and the allied genera only the number of BULBS with Leaves attached—i.e. 7b or 6b or 5b no count was made on any bulbs which had lost their leaves.

We noted growths by the symbol g or G and new growths by the symbol n or N—on the Miltonias and two new growths coming.

We reserve the privilege of refunding on orders we are unable to fill because of prior committments.

No reservations or holding of plants on orders not accompanied by cheque — CHEQUES should be made out to BUTTERWORTHS—

Shipment via mail or via Railway Express will go forward insured for the full value and at purchaser's risk. — All packing will be done by hand and charged for each order — bill will be sent at the time of shipment — charges will be at bare cost of materials and actual labor expended — no overhead added . . . .

Purchases of \$1000.00 or more may be delivered, at our option, by messenger at the same cost as if for packing and expressage . . . .

Purchases of \$5000.00 or more will be delivered by messenger within 2500 miles, if schedules permit, at the same cost as if you paid for packing and expressage.

Please order by checking off on the listing or by a complete type-written copy of the entire line of the listing.
